**POLICY UPDATE**  
**October 23, 2020**

For the protection of staff and children, Wickliffe Academy is implementing the following policies and procedures for school age children in the hybrid and the virtual school model:

1. All children riding the bus must wear a mask
2. The bus will be disinfected between the morning, mid-day and afternoon routes
3. The children must wash their hands upon arrival from school and home
4. Siblings will sit together on the bus
5. Children will socially distance on the bus and must remain in their seat during the route

All children in the hybrid model will be placed in our “second” school age room, located in the back of the building. All virtual students will stay in the front classroom. We are trying to keep them separated for their own health and safety and ours.
